Solutions' commitment to
client service. Their team
is reliable, responsive and
second to none!"
- Harvey Bass
CEO

When Stascom Technologies experienced a service disruption over the Thanksgiving holiday, ACE IT Solutions was there to help, minimizing down time so Stascom could remain productive, even over the holiday.

OVERVIEW

On the day before Thanksgiving, Stascom experienced a power outage in their office building. ACE IT Solutions' network operations was monitoring Stascom's systems, noticed the power outage and notified Stascom on Thanksgiving eve.

The outage caused a glitch with Stascom's email system and on Thanksgiving day our staff responded with remote support to diagnose the problem. It was determined that the issue required an on-site visit and our team got to work while the offices were closed for the holidays, fixed the problem and Stascom experienced little disruption to their operations.

CHALLENGE

Email is essential to Stascom's business operations. Like most businesses, they use email around the clock and have zero tolerance for downtime. Fortunately, Stascom subscribes to our managed services and receives 24x7 monitoring and access to our exceptional 24x7 help desk. ACE IT Solutions understands the stress and productivity-loss associated with downtime and we make every effort to remediate problems as efficiently as possible, including weekends and holidays. Our Help Desk technicians are equipped with all the resources needed to diagnose issues and provide a comprehensive and reliable solution. Our goal is to help our clients remain competitive and productive.

VALUE

ACE IT Solutions' provides complete managed services to Stascom Technologies, which minimizes technology-related disruptions and allows Stascom to focus on running their business. As part of ACE IT Solutions' managed services, Stascom receives 24x7 unlimited help desk support and on-site remediation, which includes response to technical emergencies any hour of the day or night, including weekends and holidays.

- ACE IT Solutions' responds to critical network emergencies within minutes and works until the issue is resolved per their managed service SLA.
- Remote monitoring prevents minor issues from becoming major disruptions and warns against network vulnerabilities.
- We guarantee your problem will get solved quickly and with as little disruption as possible and we deliver on that promise.

About ACE IT Solutions

ACE IT Solutions (www.aceits.net) is a leading provider of technology and IT services to various industries. Our services include business continuity/disaster recovery planning, IT assessments, security audits, penetration testing and beyond.
